

Hello there.

Just found and trawled through the interesting pages relating to Priory Boys School on the website.

In the photos section there is a colour photo of the 1968/69 football team. In the footnotes, naming the players, I'm the "not sure", standing, second from left. Always good to know you left such a lasting impression!

I left the island soon after leaving Priory, aged 16, to pursue a career in the police, which kept me away for almost 30yrs. My education, however, continued at Fareham Technical college and University of Portsmouth, all courtesy of the force. So if any of the old teachers sees this...the boy dun good.

I also see I got a mention in the copy of the Speech Day programme - for the 1u form prize, which was shared with Andrew Harrison, who I note has contributed a wealth of material for inclusion on the website. Well done Andrew for hoarding all the ephemera.

It would be great to have my name added to the photo, if possible, for the sake of posterity. I couldn't actually remember playing much football for the school leaning more towards rugby and judo, an interest which I continued well in to adulthood.

Kind regards,

Kevin Elliott.
